MINNEAPOLIS, Minn. – Apr. 4, 2016 – ABILITY® Network, a leading healthcare information technology company, announced today that it has acquired eHealth Data Solutions (eHDS) LLC. Terms of the transaction were not disclosed.

eHealth Data Solutions is a national software company offering tools that increase quality, reduce risk and create higher value and cost-effective resident-centered care using evidence-based decisions for long-term/post-acute care providers. In addition, eHDS offers solutions to enable the exchange of clinical data. ABILITY helps providers across the care continuum simplify complexity through innovative applications and data analytics, including revenue cycle management software, connections to payers and clinical intelligence.

“The market-leading clinical and administrative capabilities in CareWatch, RiskWatch, UBWatch and CW Connect add to our applications, giving ABILITY new growth opportunities, and extend our leadership in the post-acute market,” said Mark A. Pulido, Chairman and CEO of ABILITY Network.

“Combining eHDS with ABILITY expands our sales reach and service level for our customers,” said John Sheridan, founder and CEO of eHealth Data Solutions. **“ABILITY brings the scale and excellence to succeed in a changing market, as providers seek ways to improve clinical and financial performance to thrive in a value-based care environment.”**

Cofounders John Sheridan and Jeannette Petten and the eHDS team have joined ABILITY.
