MINNEAPOLIS – October 21, 2017 – ABILITY Network has been recognized by the Minneapolis-St. Paul Business Journal in its “Fast 50” list, which is an exclusive ranking of the fastest growing privately-held companies based in the Twin Cities. Companies named to this list have achieved outstanding revenue growth over a three year period. ABILITY came in at #40 and was one of only four companies with over \$100 million in revenue.

“Our growth is a reflection of the critical role we play in helping healthcare providers,” said Mark A. Pulido, chairman and CEO of ABILITY Network. “This recognition reflects our commitment to creating a great place to do great work, one that grows to benefit our customers and our employees alike.”

ABILITY was recognized, along with 49 other high-growth privately held Twin Cities companies, at a reception on October 20, 2017 at the Renaissance Depot in Minneapolis.

ABILITY provides applications and analytics that are integral in helping with revenue cycle management, clinical management and performance improvement via a powerful, integrated, cloud-based SaaS platform.
